

“We switched from another brand to Blowtherm because of cost and production ... our paint comes out cleaner and faster ... production is up 50%!”

When Dave Clark, Owner, Downtown Autobody, was asked about the benefits received by using Blowtherm Spray Booth equipment his response was simply, **“Improved production, cost of operation is unreal, quicker delivery to our customers and so much better and cheaper to operate than their competitors which helps our bottom line.”**

He continues, **“I talked to many booth manufacturers, Blowtherm delivered what they said they would. The Airspeed system increased our production, both solvent and waterborne. Regarding cost, Blowtherm has cut my power bill in half (over the previous supplier).”**

“Our distributor, Paint Booth Doctors, delivered what they said they would. They were right on the money in everything they told me.”

*~ Dave Clark, Owner,
Downtown Autobody, Maryville, TN*

Isn't it time you call Blowtherm USA?

Blowtherm USA is the exclusive source for Blowtherm products in North America. Blowtherm is known around the world for their high quality spray booths, utilizing the latest technologies for efficiency, productivity and waterborne curing.
